

## **IRIS** LIGHTS

---

**SPRING/SUMMER 2022**

**Irislights** spreads more than light.

The simple design and warm glow from Irislights fill room and people with well-being. Light up a set table, a magnificent vase or a beautiful wall mirror by letting atmospheric light filter through hand rolled threads.

Combine the natural in Swedish styling with the colorful fantasy of the Orient.

That is how Irislights creates **magic**.

**IRIS LIGHTS** invite you to use your creativity by choosing one of our many thought tru color combinations - or create your own!

With "pure white" as the only natural exception you can build every light string to fit your room, your mood or a happening, with your own colorful design.

Mix and match the handmade cotton balls as you like or why not use two or more pre-designed combinations to assemble your own favorite creation.

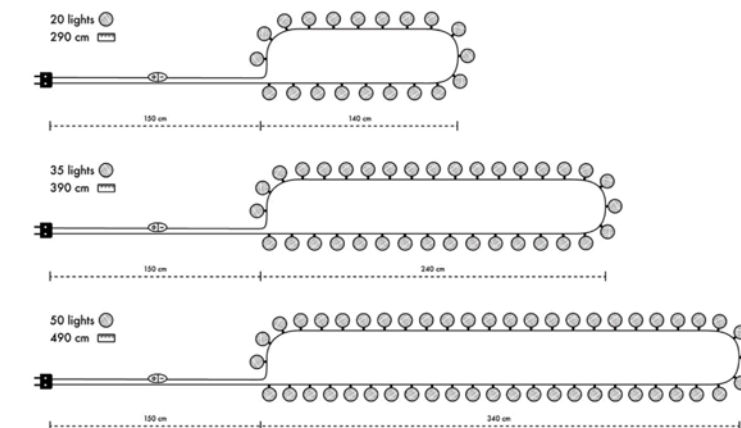

Iris Lights comes in 3 lengths, with 20, 35 or 50 cotton balls, so there is plenty of room to be playful.

You can buy the IRIS LIGHTS balls separately. Choose the colours you like the most from our wide variety of colors and build your own irislight strings.

The light string may of course be used separately, without the cotton balls, to light up your room. Let light make some magic.

## PRODUCT SPECIFICATION

Light strings: LED 230v - 50Hz. Max: 3.99W 3v/0.015A IP20
