Battery Lamps

Our values

Danish identity

Halo Design was founded in 1994 by the Danish entrepreneur Michael Waltersdorff at the age of 18.

Nordic design

We believe that by studying our roots and constantly developing a modern design language, our light solutions are highly distinctive yet recognizable on the global market.

Functionality

We want our products to improve everyday life. For this reason, we integrate our lamps with interesting features that enhance the user experience in original ways.

Value for money

Good design is truly great when it can offer a unique experience at a reasonable price. We always seek to develop feasible solutions that balance aesthetics and functionality.

The light that surrounds us defines how all things look and has a strong influence on our state of mind. We believe that a positive and cozy environment needs the appropriate light to make people comfortable.

Technology today enables us to deliver customizable and highly efficient light that can enhance our feelings. Therefore, lamps must be functional and technically advanced to integrate organically in an environment to make us feel at home.

HYGGE

Designed by Michael Waltersdorff

BARONI MOVE

“ The noun *HYGGE* implies something nice and relaxed, safe and simple. To reflect this concept, I have created this little portable lamp, which with its warm colors, will spread a good atmosphere in any home. ”

Michael Waltersdorff
Designer of Hygge

New Northern

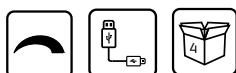

The Northern light is a natural phenomenon that can be experienced in the Nordic night sky. In keeping with the same spirit, the New Northern lamp is our way to light up the dark evenings with family and friends.

NEW
