

IRISLIGHTS

2024

Iris lights spreads more than light. The simple design and warm glow from Irislights fill room and people with well-being. Light up a set table, a magnificent vase or a beautiful wall mirror by letting atmospheric light filter through hand rolled threads. Combine the natural in Swedish styling with the colorful fantasy of the Orient. That is how Irislights creates magic!

Iris lights invite you to use your creativity by choosing one of our many thought tru color combinations - or create your own! With "pure white" as the only natural exception you can build every light string to fit your room, your mood or a happening, with your own playful design. Mix and match the handmade cotton balls as you like or maybe use two or more pre-designed combinations to assamble your own favorit set up.

Iris Lights comes in two lengths - 20 and 35 lights - so there is plenty of room to be creative. Iris lights balls can be purchased separately. Choose the ones you prefer from our wide range of colors and create your very own irislight strings. The light string may of course be used separetly, without cotton balls, to light up your room. Let light make some magic!

Light strings: LED 230v - 50Hz. Max:
3.99W 3v/0.015A IP20
