## Our values

### **Danish identity**

Halo Design was founded in 1994 by the Danish entrepreneur Michael Waltersdorff at the age of 18.

### **Nordic design**

We believe that by studying our roots and constantly developing a modern design language, our light solutions are highly distinctive yet recognizable on the global market.

### **Functionality**

We want our products to improve everyday life. For this reason, we integrate our lamps with interesting features that enhance the user experience in original ways.

### **Value for money**

Good design is truly great when it can offer a unique experience at a reasonable price. We always seek to develop feasible solutions that balance aesthetics and functionality.

*The light that surrounds us defines how all things look and has a strong influence on our state of mind. We believe that a positive and cozy environment needs the appropriate light to make people comfortable.*

*Technology today enables us to deliver customizable and highly efficient light that can enhance our feelings. Therefore, lamps must be functional and technically advanced to integrate organically in an environment to make us feel at home.*

## Our goal

Halo Design crafts original and functional lamps with a Scandinavian minimalism in mind. We constantly reinvent our design language to be contemporary and sustainable. At the same time, we are faithful to our philosophy of developing lighting solutions that are aesthetically unique, yet affordable for many.

## DC Textile

DC is a family of lamps with a simple and Scandinavian inspired design. Thanks to its round shapes and the combination of metal and wood, this range immediately became one of our classics. The veneered oak arch also has a very important function in rotating the shade of the lamps and directing the light freely. Now combining wood, metal and fabric.
